[Docket No. 94AMA-FV-956-1; FV93-956-1PR]

Sweet Onions Grown in the Walla Walla Valley of Southeast Washington and Northeast Oregon; Secretary's Decision and Referendum Order on the Proposed Marketing Agreement and Order

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Proposed rule.

SUMMARY: This decision proposes the issuance of a marketing agreement and order for Walla Walla Sweet Onions in southeast Washington and northeast Oregon and provides growers the opportunity to vote in a referendum to determine if they favor the proposed order. For the purposes of this document, the term "Walla Walla Sweet Onions" refers to sweet onions grown in the proposed production area, which consists of designated parts of Walla Walla County, Washington, and designated parts of Umatilla County, Oregon. The proposed order and agreement would authorize production and marketing research and marketing development and promotion projects, including paid advertising, and would authorize container markings. The order would be administered by a ten-member committee consisting of six producer members, three handler members, and a public member. The order would be financed by assessments on handlers of Walla Walla Sweet Onions grown in the production area. A primary objective of this program would be to improve producer returns by strengthening consumer demand through various promotional activities and by reducing production and marketing costs through production and marketing research. Walla Walla Sweet Onion producers would vote in a referendum to

determine if they favor issuance of the proposed marketing order.

DATES: The referendum shall be conducted from April 7 through April 14, 1995. The representative period for the purpose of the referendum herein ordered is January 1, 1994, through December 31, 1994.

This administrative action is governed by the provisions of sections 556 and 557 of Title 5 of the United States Code, and is therefore excluded from the requirements of Executive Order 12866.

Preliminary Statement

This proposed marketing agreement and order was formulated on the record of a public hearing held at Walla Walla, Washington, on November 15, 1993, to consider a proposed marketing agreement and order regulating the handling of sweet onions grown in the Walla Walla Valley of Southeast Washington and Northeast Oregon. The hearing was held pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674), hereinafter referred to as the Act, and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR part 900). Approximately 25 witnesses, including Walla Walla Sweet Onion producers, handlers, and a Washington State University researcher, testified in support of the order. Proponents

emphasized that Walla Walla Sweet Onion producers need a Federal marketing order to effectively compete with other sweet onion producing areas. No one present at the hearing testified in opposition to the proposed order. At the close of the hearing, January 15, 1994, was established as the date by which briefs, statements, and proposed corrections to the transcript were due. No briefs were received.

The proponents testified that Walla Walla Sweet Onion producers, in order to remain competitive with other sweet onion producing areas, must conduct research and promotion programs to reduce production and marketing costs and increase sales. Such programs should include production and marketing research projects and promotion projects, including paid advertising.

Testimony indicated that voluntary research and development efforts by the Walla Walla Sweet Onion industry have not been successful because of the lack of a coherent research and development plan with broad-based industry support. Also, a relatively small percentage of the U.S. onion crop is produced in the proposed production area in Walla Walla County, Washington, and Umatilla County, Oregon, and individual producers and handlers cannot implement an effective research, marketing development, and promotion program. By contrast, most other onion growing areas in the United States are large enough to convince private entities, such as seed companies, to conduct production research and developmental efforts with the result being new varieties specifically suited to those areas. Proponents believe that an industry-wide program is therefore necessary to enable the pooling of resources to address common problems. A single producer or even two or three producers cannot marshal the resources necessary to conduct effective research, marketing, and promotion programs including paid advertising.

Upon the basis of evidence introduced at the hearing and the record thereof, the Administrator of the Agricultural Marketing Service (AMS) on November 3, 1994, filed with the Hearing Clerk, U. S. Department of Agriculture, a Recommended Decision and Opportunity to File Written Exceptions Thereto by December 12, 1994.

One exception was received from Mr. David R. Darrington of Agri-Pack, Inc., Pasco, Washington. Mr. Darrington's exception concerned: (1) His belief that the proponent group's intent was to limit the production of Walla Walla Sweet Onions and competition among Walla Walla producers and handlers; (2) his belief that low producer returns in recent years were due to low quality onions; (3) the extent of sweet onion production in the State of Washington; (4) the sweetness of Walla Walla onions on a season to season basis; and (5) the soil type required to grow Walla Walla Sweet Onion varieties that can be marketed as Walla Walla Sweet Onions, and the size of the proposed production area. These points are discussed in the *Findings and Conclusions* below.

Small Business Consideration

In accordance with the Regulatory Flexibility Act (RFA) (5 U.S.C. 601 *et seq.*), the Administrator of the Agricultural Marketing Service considered the economic impact of this action on small entities. The record indicates that there are approximately nine handlers of Walla Walla Sweet Onions in the proposed production area and 50 producers. Small agricultural service firms have been defined by the Small Business Administration (SBA) (13 CFR 121.601) as those whose annual receipts are less than \$5,000,000, and small agricultural producers as those having annual receipts of less than \$500,000. The majority of the handlers and producers may be classified as small entities.

During the 1992 season, commercial shipments of Walla Walla Sweet Onions totaled about 390,000 hundredweight at an average f.o.b. price of \$16.60 per hundredweight for a total value of \$6,474,000. An indeterminate volume, probably about 10 percent, was sold at roadside stands. While there is a great variance in the size of individual handlers' operations, the record indicates that nearly all of the handlers that would be regulated under this order would qualify as small firms under the SBA's definition. Witnesses testified that because most of the producers and handlers of Walla Walla Sweet Onions are small, they are unable to individually finance the types of research and promotion efforts needed by the industry. A marketing order program would provide a means for these small entities to pool their resources and work together to solve their common problems. Witnesses testified that such action is necessary for this relatively small industry to remain profitable in the face of intense

competition from larger production areas.

Acreage and supplies of Walla Walla Sweet Onions have declined in recent years, and proponents believe that the order would provide a much needed means of halting a drop in grower returns experienced in past seasons. This would be achieved by strengthening demand, developing new markets for existing supplies and encouraging increased production. Also, costs could be reduced through production research. Thus, the order would be expected to have a positive impact on producer returns.

The order would authorize the collection of assessments from handlers of Walla Walla Sweet Onions grown in designated parts of Walla Walla County, Washington, and Umatilla County, Oregon. Assessment funds would be used to finance production research projects that could reduce costs by reducing the occurrence of onion diseases, controlling plant pests, and developing varieties with more desirable flavor, quality, and size. Assessment funds could also be used to strengthen demand and expand markets for Walla Walla Sweet Onions through marketing research and development and product promotion programs, including paid advertising. Projects to develop better methods of handling, shipping or storing onions, to explore additional or alternative uses of onions, to check nutritive values, and similar research are some examples of marketing research. Examples of marketing development projects include exploring marketing possibilities, contacting buyers, distributing educational material relating to the handling and marketing of onions, and the dissemination of the results of current or past marketing research projects.

The order would be administered by a committee composed of Walla Walla Sweet Onion producers, handlers, and a public member nominated by growers and handlers and selected by the Secretary of Agriculture (Secretary). Daily administration of the order would be carried out by a staff hired by the committee. The order would not regulate the production of Walla Walla Sweet Onions and would place no restriction on the quality or quantities of Walla Walla Sweet Onions that could be handled.

The principal requirements of the order that would affect handlers would be the requirements that they pay assessments on fresh market shipments of Walla Walla Sweet Onions to fund research and promotion programs and that container markings could be

regulated. The amount of the assessment rate is not specified in the proposed order, but witnesses at the hearing indicated that an appropriate rate might be five cents per 50-pound bag for administrative costs; research and promotion costs could require an additional five to seven cents per bag or more. Any assessment rate to cover committee expenses that may be established would be recommended by the committee to the Secretary for approval.

The order would also impose some reporting and recordkeeping requirements on handlers. Handler testimony indicated that the expected burden that would be imposed with respect to these requirements would be negligible. Most of the information that would be reported to the committee is already compiled by handlers for other uses and is readily available. In compliance with Office of Management and Budget (OMB) regulations (5 CFR part 1320) which implement the Paperwork Reduction Act of 1980 (44 U.S.C. Chapter 35) and section 3504(h) of that Act, the information collection and recordkeeping requirements that may be imposed by this order have been submitted to OMB for approval. Those requirements would not become effective prior to OMB approval. Any requirements imposed would be evaluated against the potential benefits to be derived and it is expected that any added burden resulting from increased recordkeeping would not be significant when compared to those anticipated benefits.

Reporting and recordkeeping requirements issued under comparable marketing order programs impose an average annual burden on each regulated handler of about one hour and a two year record retention requirement. It is reasonable to expect that a comparable burden may be imposed under this order on the estimated nine handlers of Walla Walla Sweet Onions.

The Act requires that prior to the issuance of an order, a referendum be conducted of affected producers to determine if they favor issuance of the order. The ballot material that will be used in conducting the referendum will be submitted to and approved by OMB prior to use. It is estimated that it would take an average of 10 minutes for each of the approximately 50 Walla Walla Sweet Onion growers to participate in the voluntary referendum balloting. Additionally, it has been estimated that it would take approximately ten minutes for each of the nine handlers to complete the marketing agreement. In determining that the order would not have a significant economic impact on

a substantial number of small entities, all of the issues discussed above were considered. The order provisions have been carefully reviewed and every effort has been made to eliminate any unnecessary costs or requirements. Although the order may impose some additional costs and requirements on handlers, it is anticipated that the order would help to strengthen demand for Walla Walla Sweet Onions. Therefore, any additional costs should be offset by the benefits derived from expanded markets and sales benefitting handlers and producers alike. Accordingly, it is determined that the order would not have a significant economic impact on a substantial number of small handlers or producers.

Findings and Conclusions

The material issues, findings and conclusions, rulings, and general findings and determinations included in the Recommended Decision set forth in the November 10, 1994, issue of the **Federal Register** (59 FR 56254) are hereby approved and adopted subject to the following additions and modifications:

In his exception, Mr. Darrington stated his support for research and promotion programs. However, he also stated that he believes the proponent group's intent is to limit production of Walla Walla Sweet Onions and competition among Walla Walla producers and handlers. The Act, which is the legislative authority for the proposed order, provides no authority to either limit the production of a commodity or restrict competition within an industry. The proposed production area has been recognized since the beginning of the twentieth century as having unique soil properties, properties the adjacent areas do not share, to the same degree. However, the production of Walla Walla Sweet Onions uses less than half of the acreage in the Walla Walla Valley; growers wishing to produce Walla Walla Sweet Onions could buy, lease, or rent acreage within the area. Therefore, the size of the production area would not adversely affect competition. The order, as proposed, would authorize research and development projects, including paid advertising. The order also would permit the committee, as representatives of the industry, to establish, with Secretarial approval, container labeling requirements. No other regulatory activity would be authorized.

Mr. Darrington stated that any low grower returns in recent years were due to poor quality onions, not poor market conditions. Poor market conditions can be the result of poor quality product

sold on the market. However, poor market conditions can also be caused by excessive supplies of local product in the market place and excessive supplies of onions from other growing areas, or a combination of all of these factors. Although this part of Mr. Darrington's exception could have merit, it does not alter the findings of the Recommended Decision which addressed poor market conditions for Walla Walla Sweet Onions because poor market conditions often are a result of a poor quality commodity.

Mr. Darrington disagreed with the statement in the Recommended Decision that half or more of the non-storage onions grown in Washington came from the Walla Walla Valley and that half of all Walla Walla Sweet Onion acreage is outside the Walla Walla Valley. The exhibits and testimony presented at the hearing indicate that the Walla Walla Valley produces at least half of Washington State's non-storage onion crop. The evidence does not support Mr. Darrington's statement.

Mr. Darrington also stated that there are other areas in the nation that have marketing orders for their specific onions, but none of them are restricted to such a small area as proposed by this order. This is true. However, section 11 (B) of the Act states that orders issued under this section shall be limited in their application to the smallest regional production areas or regional marketing areas, or both, as the case may be, which the Secretary finds practicable, consistently with carrying out such declared policy. The record indicates that the parts of Walla Walla and Umatilla Counties which are the proposed production area constitute the smallest practicable area.

Mr. Darrington stated that climate and variety are the major factors determining the sweetness of an onion; and that there are years when Walla Walla sweets are far from being sweet due to the growing conditions. This is probably true of all onions, but has no relevance on the findings of the recommended decision.

Mr. Darrington further states that the soil type in the proposed production area is not unique to that area. However, testimony was given to the contrary; witnesses stated that the unique growing conditions in the proposed production area, particularly the low sulfur content of the soil, yield a sweeter, milder onion than is grown elsewhere. Therefore, in order for an onion to be labeled as a Walla Walla Sweet, it would have to be produced in the proposed production area.

Mr. Darrington states that the proposed order allows any onion

variety, other than a sweet Spanish hybrid, grown in the proposed production area to be called a Walla Walla Sweet Onion and that there are a number of varieties grown in the production area that are not sweet. Mr. Darrington states that the order would permit growers within the production area to grow whatever variety they wish and call it a Walla Walla Sweet Onion. As the order is proposed, the committee may, with the approval of the Secretary, exempt individual varieties from any regulations issued under the order. This would allow the committee to prevent onions that do not qualify as "sweet onions" from being marketed as Walla Walla Sweet Onions. Thus, it is the intent that the Walla Walla onion industry would have control over the varieties of onions marketed as Walla Walla Sweet Onions.

Mr. Darrington states that the order proposes that onion seeds not be regulated under the order, and that producers may sell seed onions grown within the production area wherever they wish outside of the area. Onions produced from any Walla Walla onion seed planted outside of the Walla Walla Sweet Onion production area do not qualify as Walla Walla Sweet Onions. For an onion to be assessed and marked as a Walla Walla Sweet Onion, it must be grown within the Walla Walla Sweet Onion production area established by the order and the variety must be recognized by the U.S. Department of Agriculture or recommended by the committee and approved by the Secretary as a sweet onion. Onions that do not meet these criteria may not be marketed as Walla Walla Sweet Onions and would not be assessed. Therefore, although Mr. Darrington's statement with respect to onion seeds is correct, it is not relevant to this discussion.

Mr. Darrington states that the proposed area appears to be very self-serving to the group that is supporting this order. This is true, inasmuch as marketing orders and agreements are self imposed instruments that provide industry members with a means to provide orderly marketing conditions. This proposed order would authorize production and marketing research and marketing development and promotion projects, including paid advertising, and would authorize container markings. This order would also prohibit onions grown outside of the proposed production area from being marketed as Walla Walla Sweets, thus improving returns to producers within the production area by strengthening consumer demand through various promotional activities and by reducing production and marketing costs through

production and marketing research. Thus, for the reasons stated, those parts of Mr. Darrington's exception that are relevant are denied.

Rulings on Exceptions

In arriving at the findings and conclusions and the regulatory provisions of this decision, the exceptions to the Recommended Decision were carefully considered in conjunction with the record evidence. To the extent that the findings and conclusions and the regulatory provisions of this decision are at variance with the exceptions, such exceptions are denied.

Marketing Agreement and Order

Annexed hereto and made a part hereof is the document entitled "Order Regulating the Handling of Sweet Onions Grown in the Walla Walla Valley of Southeast Washington and Northeast Oregon." This document has been decided upon as the detailed and appropriate means of effectuating the foregoing findings and conclusions.

It is hereby ordered, That this entire decision be published in the **Federal Register**.

Referendum Order

It is hereby directed that a referendum be conducted in accordance with the procedure for the conduct of referenda (7 CFR 900.400 *et seq.*) to determine whether the issuance of the annexed order regulating the handling of sweet onions grown in the Walla Walla Valley of southeast Washington and northeast Oregon is approved or favored by producers, as defined under the terms of the order, who, during the representative period were engaged in the production of sweet onions in the Walla Walla Valley of southeast Washington and northeast Oregon.

The representative period for the conduct of such referendum is hereby determined to be January 1, 1994, through December 31, 1994.

The agents of the Secretary to conduct such referendum are hereby designated to be Gary D. Olson and Robert J. Curry, Marketing Order Administration Branch, Fruit and Vegetable Division, AMS, USDA, 1220 S.W. Third Avenue, room 369, Portland Oregon, 97204; telephone 503-326-2724, FAX 503-326-7440.

Dated: March 30, 1995.

Patricia A. Jensen,

Acting Assistant Secretary, Marketing and Regulatory Programs.

Order Regulating the Handling of Sweet Onions Grown in the Walla Walla Valley of Southeast Washington and Northeast Oregon.¹

Findings upon the basis of the hearing record. Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 *et seq.*), and the applicable rules of practice and procedure effective thereunder (7 CFR part 900), a public hearing was held upon a proposed marketing agreement and order regulating the handling of sweet onions grown in the Walla Walla Valley of Southeast Washington and Northeast Oregon.

Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The marketing agreement and order, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the Act;

(2) The marketing agreement and order regulate the handling of sweet onions grown in the production area in the same manner as, and are applicable only to persons in the respective classes of commercial and industrial activity specified in the marketing agreement and order upon which hearings have been held;

(3) The marketing agreement and order are limited in their application to the smallest regional production area which is practicable, consistent with carrying out the declared policy of the Act, and the issuance of several orders applicable to subdivisions of the production area would not effectively carry out the declared policy of the Act;

(4) There are no differences in the production and marketing of Walla Walla Sweet Onions produced in the production area which make necessary different terms and provisions applicable to different parts of such area; and

(5) All handling of Walla Walla Sweet Onions grown in the production area is in the current of interstate or foreign commerce or directly burdens, obstructs, or affects such commerce.

Order Relative to Handling

It is therefore ordered, that on and after the effective date hereof, all handling of sweet onions grown in the Walla Walla Valley of Southeast

¹ This order shall not become effective unless and until the requirements of § 900.14 of the rules of practice and procedure governing proceedings to formulate marketing agreements and marketing orders have been met.

Washington and Northeast Oregon, shall be in conformity to, and in compliance with, the terms and conditions of the said order, as follows:

The provisions of the proposed marketing agreement and order contained in the Recommended Decision issued by the Administrator on November 3, 1994, and published in the **Federal Register** on November 10, 1994 (59 FR 56254), shall be and are the terms and provisions of this order and are set forth in full herein. Sections 956.97 through 956.99 apply only to the proposed marketing agreement and not to the proposed order.

1. Title 7, Chapter IX is proposed to be amended by adding part 956 to read as follows:

Class C airspace areas are predicated on an operational air traffic control tower (ATCT) serviced by a radar approach control facility. These areas would be modified to reflect the radar approach control facility's hours of operation. This proposal would not change the designated boundaries or altitudes of these Class C airspace areas. In addition, this notice proposes to establish Class E airspace at Cedar Rapids Municipal Airport, IA, when the associated radar approach control facility is not in operation.
